CHUS/HF foundry

WHAT WE DO?

Customised Investment castings and Machining solutions for you

Technically CHUS is able to produce customised metals parts and components for all industries; However, we are mainly focussed on producing and supplying highly level investment casting parts, in particular as below

- Stainless steel specified washers
 Variou kinds of industrial valve parts/pump parts
- 3. Pipe fttings4. Marine and civil hardwares
- 5. Machinery/construction parts
- 6. Valve floating balls/handles7. Upmarket sanitary wares

CHUS is committed to achieve customer satisfaction. through manufacture and timely supply of quality investment castings as per international standards and continual improvement of quality management system

Material

- 1.Stainless steel
- 2.Carbon steel
- 3.Duplex steel
- 4. Nickel base alloy steel

We also adhere to the following casting Standards ASTM, EN, BS, DIN, JIS, GB

Our new casting range:

- Casting weight range: 0.03kg to 500kg
- 2. Max Length: Up to 1.2M
- Minimum casting wall thickness: 1.5mm
- 4. Casting surface roughness: Ra6.3um-12.5um
- 5. Monthly Capacity: 600T

Capabilities Include:

Turning up to 14" Diameter and 36" Length Milling up to 24" X 24" X 24"

Advanced machining cell for rapid prototyping

Experienced in machining a wide range of materials

Capable of tolerances to ±0.0002"

Laser And Impression part marking

Metric and standard threading

Packaging per MIL standards

Assembly and testing to meet specifications

Very Strict quality control system always make your quality in CONTROL

Every casting must have below testings:

- 1. Casting simulation program 制程前模拟浇注
- 2. Optic emission Spectrumeter device Analysis 光谱仪分析
- 3.Penetrant Inspection 渗透检验
- 4. Metallurgical Microscopes
- 金相显微镜分析
- 5.Mechanical Property Testing (tensile, hardness, toughness)
- 6.CMM 三次元
